

**Insider Threat Analyst**  
**Location: Landover, MD**

**Responsibilities:**

- This contract will provide insider threat detection and mitigation analytic support to DIA's Threat Mitigation Cell (TMC) in furtherance of DIA's Insider Threat Program's (InTP) mission which is to protect DIA personnel, facilities, information, and systems from loss, degradation, or acts of violence caused or aided by a person(s) with authorized access.
- The TMC serves as the "Hub" of the InTP. The TMC consists of a small group of professionals with demonstrated experience in Security, Counterintelligence (CI), Law Enforcement (LE), Computer Network Defense (CND), and other expertise necessary to identify anomalous behavior indicative of an insider threat. This group identifies behavior possibly indicative of a potential threat using host-based insider threat detection and analysis and correlation tools, developing a comprehensive picture of the event.

**Requirements:**

- United States citizen
- 8 years of Counter intelligence, Intelligence or law enforcement experience required.
